

Manage Change More Effectively for Smoother Supplier Relationships

Changes to supplier information happen all the time, but updates can get lost in the shuffle. Missing or inaccurate information leads to confusion, duplicated efforts, and overall frustration.

Direct Commerce Supplier Management solutions make it easy to onboard all of your suppliers, streamline your workflows, and ensure compliance with government regulations and internal protocols.

To get started, email sales@directcommerce.com or call 415-288-9700.

With Direct Commerce, 100% supplier participation and 100% reduction in paper invoices are within reach.

Supplier Management Solution Highlights

Supplier Onboarding

Direct Commerce has a proven track record of ensuring the highest supplier adoption rate possible. Let our experienced supplier rollout team conduct the campaigns and training that will help your suppliers embrace the Direct Commerce platform.

Compliance

Whether you're faced with government regulations or internal business requirements, Direct Commerce can help you reduce risk through more effective compliance.

TIN Check helps you eliminate manual work and avoid fines up to \$520, by automatically verifying that the supplier Taxpayer Identification Numbers (TIN) used in your forms are correct.

Supplier Screening (OFAC) ensures that you're not doing business with any entity sanctioned by the U.S. Treasury's Office of Foreign Assets Control

Legal Invoicing

This feature runs in a secure, web-hosted environment and enables legal personnel to track and manage legal matters, review and approve invoices, access categorized spend reports, deliver purchase orders, and publish payment information. Reporting and spend-tracking capabilities provide cost analysis reports, categorized by law firm, matter, and task performed. Non-financial reporting adds the ability to do qualitative reviews of suppliers.

Supplier Workflow

Direct Commerce offers a set of rules-driven and secure processes that support automatic escalations, timeout notifications, custom timeout actions, and audit trail logging.
